PROJECTS

BANK MANAGEMENT SYSTEM

Bank Management System aims to streamline banking operations, improve customer service, customers can perform the basic banking transaction by sitting at office or at homes through PC or Laptop.

Project is developed in **Java** language using swing ,awt ,sql package for database used **SQL**.

NEURAL NETWORK BASED APPROACH FOR PREDICTION OF COVID-19

Artificial Immune System Based COVID Detection(AISCD) is extracted hierarchical image using **neural network**. Here we used dimensions reduction & colour features to develop a model.

CHAT APPLICATION

It aims to communication between users same user interface as whatsapp.

Here I used **java socket programming** concepts & java.net package.

SKILLS AND ABILITIES

THE FOLLOWING ARE THE BEST SKILLS WHICH I BELIEVE ARE APPLICATION TO THE POSITION I HAVE APPLIED FOR

1. Programming
2. Logical & Structured thinking
3. Coding in multiple languages like
JAVA , C, C++ , SQL
